#### Air Monitoring

EPA conducted handheld air monitoring from December 1, 2019 at 06:00 to December 2, 2019 at 06:00 at 146 locations in the communities surrounding the TPC Group facility in Port Neches, Texas. The air monitoring results were reported below the detection limit at all locations for particulates. 1 location was reported above the screening level of 0.5 ppm for both total volatile organic compounds (VOCs) and for 1,3-butadiene.
